Preface

This is the phplib Frequently-Asked Questions document.

It is maintained by Ted Rolle ¡ted.rolle@usa.net¿

Chapter 1

FAQ

THE MOST-FREQUENTLY-ASKED QUESTION

setcookie() oops The answer is that *something* – text or html – has been written to the page before the call to `page_open()`.

Even newlines or spaces written after `local.inc` or `prepend.php3` – but before `page_open()` – can do it.
